Contact Your Local Prospects & Politicians

The quickest and easiest way for you to get grants is to get really comfortable making phone calls to the offices of your local elected representatives.

It's not reasonable to expect that you would be speaking directly with your local politician. When you call their offices, you will probably speak with a receptionist, a temp, an assistant or perhaps an aide.

In this video I'll show you how to find your local elected officials. And once you find them, use my sample script to open up a conversation with the person on the phone and let them know how their office can help you.
